

## Shamley Green Toad Patrol 2022

As the weather is warming up, the annual toad, newt and frog migration will soon begin. Our toad patrollers will be active in Woodhill, Stroud and Madgehole Lanes, as well as around the village pond, Lords Hill, Hullbrook and Norley Lanes.

Toads are most active on warm wet evenings, but they will be out on cooler, drier evenings too. Please drive slowly and slow down if asked to by toad patrol.

You are welcome to join us any evening; we start at dusk, and you can stay for as long as you want. All you need a torch and a hi-viz jacket. For more information, contact Charlotte on 07971 000568 or [charlotte.gray88@gmail.com](mailto:charlotte.gray88@gmail.com).
